12 August 2020

1　Introduction

Here is the text of introduction. Basic syntax and compiling documents. We are using Overleaf for working with LATEX. Latex is a macro-package used as a language based approach for typesetting documents.

1.1　DTL

DTL class is fun and interesting. The first topic we are learning is LATEX which can be used for preparing letters, applications, articles, reports, publication, thesis, books, etc.

1.1.1 Demo

Looking forward to this semester. This is the first time we are using Latex. The following is a demo table.

Table 1: Table for variables

SR.NO	Value	Variable
1	22	day
2	07	date
3	01	year
